

Saad ALwuzrah

CYBERSECURITY & IT ENGINEER

Final-year IT student at IMSIU specializing in Blue Team cybersecurity. Skilled in network traffic analysis, threat detection, and defensive security infrastructure. Seeking a co-op opportunity to apply hands-on experience in packet analysis, SIEM monitoring, and incident response.

EDUCATION

Bachelor of Information Technology

Imam Mohammad Ibn Saud Islamic University (IMSIU)

Expected Graduation: 2026

AREAS OF FOCUS

Network Traffic Analysis

Analyzing network packets and traffic patterns using Wireshark to detect anomalies, trace data paths, and investigate suspicious activity across protocols like TCP/IP, DNS, and HTTP/S.

Blue Team & Cyber Defense

Studying defensive security strategies including firewall rule design, intrusion detection/prevention systems (IDS/IPS), and SIEM-based event monitoring for proactive threat detection.

Incident Response

Building knowledge in identifying, analyzing, and responding to security incidents — from initial detection through containment and post-incident documentation.

TECHNICAL SKILLS

Blue Team & Defense

Firewalls

IDS / IPS

SIEM

Incident Response

Threat Detection

Network Analysis

Wireshark

Packet Analysis

TCP/IP

DNS

HTTP/S

Traffic Monitoring

Tools & Platforms

Linux

Windows Server

Nmap

VirtualBox / VMware

Python

GOALS

- Obtain CompTIA Security+
- Complete hands-on CTF challenges
- Build a home security lab
- Gain real-world SOC experience

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Attention to Detail
- Continuous Self-Learning
- Effective Communication

LANGUAGES

Arabic

English

INTERESTS

- CTF Challenges
- Threat Intel
- Network Forensics
- Open Source
